

6th Annual Best Practices Seminar

Do Your Systems Speak Business?

The PCMS IT Advisor Group invites you to join Microsoft, Symantec and VMware as we explore how to drive innovation with the next generation of technologies. Sessions include:

Application Platform Optimization

An Interactive whiteboard session to help you map your technology back to your business

Next Generation Virtualization with VMware

An inside look at how to manage your virtual environment, virtual desktop and server sprawl

Data Management Strategies with Symantec

The next wave of Data Protection strategies, including data de-duplication

How to Empower Your People Through Unified Communications

An exploration of Office Communications Server R2 - a cost effective voice over IP and Unified Communications solution

A hands-on look at OCS R2, SharePoint , Windows 7 and many others

When: Thursday, October 29th, 2009
8:30 am - 3:30 pm
Registration begins at 8:30 am

Where: Cintas Center at Xavier University
1624 Herald Avenue
Cincinnati, OH 45207
